STUDENT MOBILITY - POINTS OF DISCUSSION

- Cliff edge effect – loss of EU student enrolments at UK universities, as noted
- Loss of UK access to Erasmus+ mobility scheme
- Turing Scheme – a global scheme – looking beyond the PR spin?
- Language learning in the UK – what does it mean for ‘global’ mobility?
- Soft power and public diplomacy

WHY DO EU STUDENTS MATTER?

- The added diversity on campuses
- Evidence that EU students are high calibre students
- Soft power: EU students return to their country as ‘ambassadors’ of UK culture and values
- Creating medium to long-term business ties and closer trade through alumni
- Financially speaking, loss of EU UG students a threat, as universities could rely on EU students being enrolled for 3-4 years (13,155 EU students enrolling in 2021 for 1st year of a primary degree compared with 37,530 the year before)
- At PG level, loss of EU students significant, acts as a pipeline into science sector

RECIPROCAL ERASMUS – UNILATERAL TURING

“The UK is a massive net contributor to the continent’s higher-education economy because over the last decades we had so many EU nationals, which has been a wonderful thing, but our arrangements mean the UK exchequer more or less loses out on the deal” (Boris Johnson, 2020).

Until 2020, 2 different approaches to cross-border student mobility:

- Commercial international education targeting overseas students & ‘lucrative’ markets (inward)
- Participation in the EU’s Erasmus+ scheme – based on the principle of reciprocity

ERASMUS+ - MORE THAN JUST MOBILITY

Budget: €26.2 billion to support mobility and cooperation covering HE, vocational education & training (e.g., ErasmusPRO), school education, adult education, youth (e.g., DiscoverEU) and sport.

Strong focus on **social inclusion**, the **green and digital transitions** + (e.g., Digital Opportunity Traineeships scheme) promoting **young people's participation in democratic life** (e.g., Youth Participation Activities).

Mobility activities complemented with language learning opportunities via the Erasmus+ Online Language Support (OLS) tool or other additional forms of linguistic support.

ERASMUS+ - KEY ACTIONS AND JEAN MONNET ACTIONS

Key Action 1 - Mobility of learners:

- Mobility projects for learners and staff in HE, VET, school education, adult education and youth
- Youth participation activities
- DiscoverEU – Inclusion Action
- Mobility for sport coaches
- Virtual exchanges in higher education and youth

Key Action 2 - Cooperation among organisations and institutions:

- Partnerships for excellence, including:
 - Centres of Vocational Excellence, Erasmus Mundus Action, European Universities, Erasmus+ Teaching Academies
- Partnerships for innovation:
 - Alliances for Innovation, Forward-looking projects
- Capacity building in the field of higher education, vocational education and training, youth and sport
- Not-for-profit European sport events

Key Action 3 - Support to policy development and cooperation:

- European Youth Together, cooperation with international organisations

KING'S EUROPEAN GRANT (KEG)

“Following the UK’s departure from the European Union and consequentially the Erasmus+ Scheme, King’s committed funding from its own resources to support students completing a study or work placement that would have previously been eligible for Erasmus+ funding. Currently, this is only confirmed for the 2022/23 academic year. Students must spend a minimum of 3 months at the host university/placement provider to receive the grant...

“As the grant is intended to support placements that would have previously been eligible for Erasmus+ funding, the grant rates will be the same as for Erasmus+ in a given academic year. These grant rates are calculated and allocated by the King’s Student Funding Office. Students classified as 'Home Undergraduates' for fee purposes may be able to receive an additional top-up should they meet the requirements”.

TURING SCHEME

4 objectives of Turing – mostly political goals – include advancing :

- Global Britain, with over 150 countries involved;
- Levelling up within the UK;
- Developing key skills to improve employability;
- Better value for UK taxpayers (UK Government 2022).

In August 2021, 39 universities, 114 schools and 110 further education applications awarded grants... 40,000 UK based students selected, 48% of which are from disadvantaged backgrounds.

Budget of £110 million for 2022/23 - less than the total value of all Erasmus+ projects funded in the UK, valued at €144.69 million in 2019.

LANGUAGE LEARNING – A PARADIGM SHIFT?

“With the UK’s relationship with the countries whose languages are most commonly taught in schools about to undergo a significant realignment, the survey also sought to gather information on the impact of the Brexit process on school policies, teacher supply, international links and the attitudes of parents and pupils” (Tinsley, Doležal, 2018, p.2).

British Council’s Language Trends Survey (2018) reveals a widening gap in young people’s access to foreign languages provision depending on their socio-economic background.

The economic cost of the UK’s linguistic underperformance, in terms of lost trade and investment has been estimated at 3.5% of GDP (British Academy, 2019).

WHO MANAGES TURING?

Capita plc, a private consulting and digital services business, awarded 23-month awarded contract worth £6.27 million (below tender listing the contract as worth up to £7million).

Capita replaces British Council – Appointed ACU as “principal partner” to “lead on the assessment of applications and to support with monitoring and evaluation” (Capita, 2021). ACU has its own global networks and partnerships – and a broad yet specific agenda.

Shorter programme cycles, potentially leading to more administration and management and bidding wars - to the detriment of education & internationalisation.

SOFT POWER AND PUBLIC DIPLOMACY (CULL, 2008)

TAXONOMY OF TIME/FLOW OF INFORMATION/INFRASTRUCTURE IN PUBLIC DIPLOMACY

Type of Public Diplomacy	Time Frame	Flow of Information	Typical Infrastructure
1. Listening	Short and long term	Inward to analysts and policy process	Monitoring technology and language-trained staff
2. Advocacy	Short term	Outward	Embassy press office, foreign ministry strategy office
3. Cultural diplomacy	Long term	Outward	Cultural center and/or library
4. Exchange diplomacy	Very long term	Inward and outward	Exchange administrator, educational office
5. International broadcasting	Medium term	Outward but from a news bureaucracy	News bureaus, production studios, editorial offices, and transmitter facilities

The background is a complex, abstract composition of blue and green hues. On the right side, there is a prominent, bright, multi-colored vortex or spiral that appears to be pulling inwards. The rest of the image is filled with intricate, fractal-like patterns and glowing, filamentary structures that resemble a cosmic web or a complex network of energy. The overall effect is one of dynamic movement and interconnectedness.

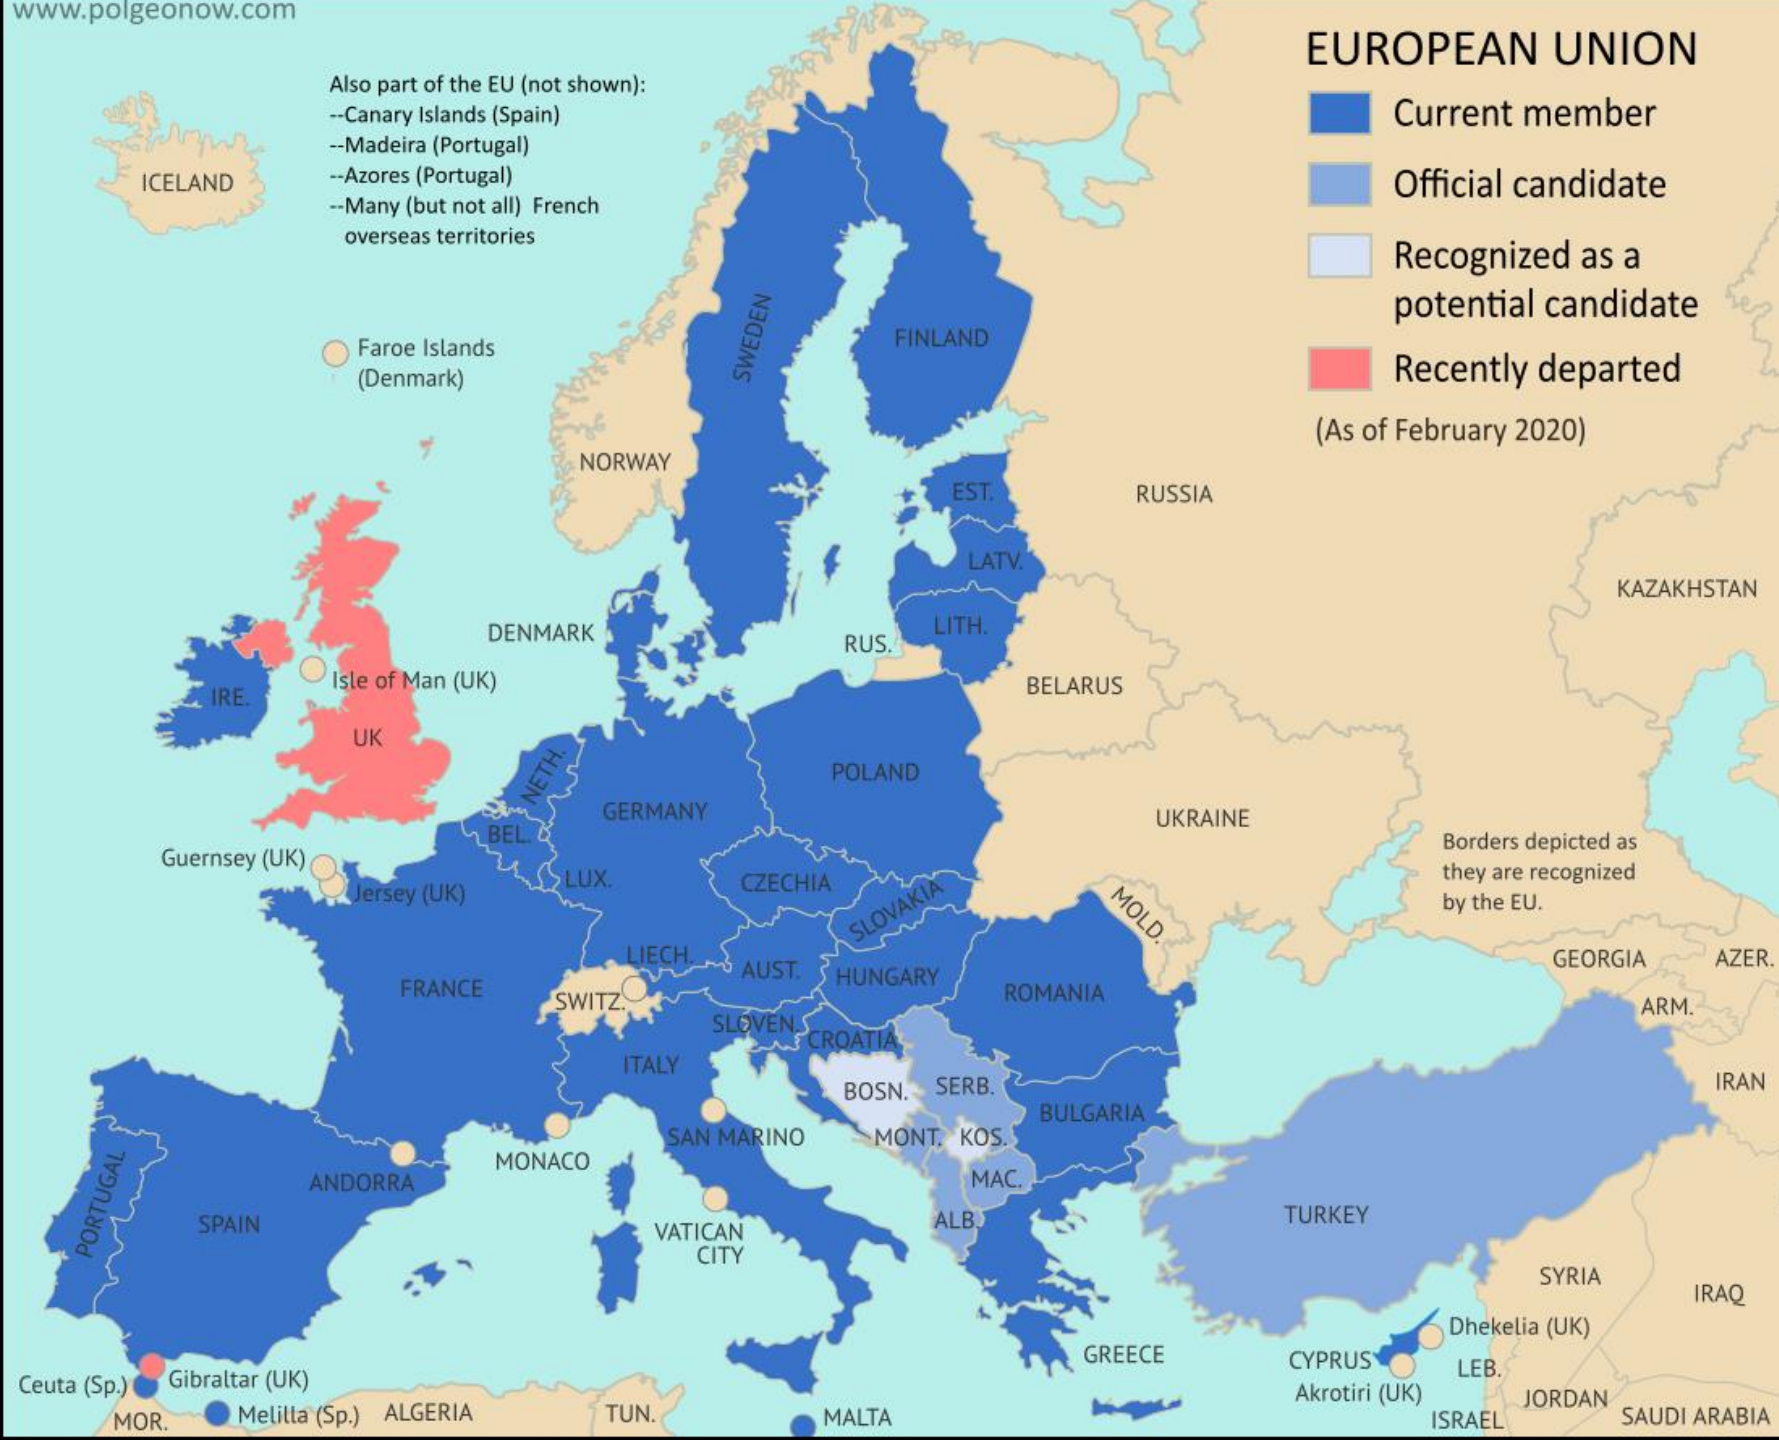

‘IF TIME UNFOLDS AS CHANGE, THEN SPACE
UNFOLDS AS INTERACTION’ – DOREEN MASSEY

THE REVERSE ALSO APPLIES.
BREAKING INTERACTION
WITH EUROPE OVER TIME
MEANS VACATING THAT SPACE

– so that increasingly, the European space is no longer seen at all in UK, even in higher education which has been so connected. History shows that internationalisation can never be taken for granted, it is reversible, and *it is so easy to fall back into parochialism*
