

# Interrogating AI in education: when peeking inside the black box is not enough

12 September 2023

00:15:25 Janja Komljenovic: Hi everyone, welcome to this webinar. It is the 3rd talk in the series on AI in higher education.

00:17:25 Janja Komljenovic: Please ask questions or post comments here in the chat area. Please feel free to do so already during the talk. I will then select questions after the talk and if selected, you will be asked to unmute yourself and ask your questions yourself. If you prefer me to read your question, that is fine. Just indicate so in brackets after the question. Enjoy the talk :)

00:39:41 Janja Komljenovic: Colleagues, what are your questions or comments for Carlo?

00:46:35 Lee Harvey: YOU TALK ABOUT PEERING INTO THE BLACK BOX BUT I'D LIKE TO KNOW IN RATHER MORE DETAIL IS WHAT GOES ON IN THE BLACK BOX? THUS WHAT ARE THE IMPLICATIONS FOR THE DEVELOPMENT OF KNOWLEDGE AND THE ROLE OF HUMAN INPUT IN THAT DEVELOPMENT? IN SHORT, IS AI CREATING SELF-PERPETUATING KNOWLEDGE AND THE EXPENSE OF CRITIQUE AND DECONSTRUCTION?

00:47:56 Lee Harvey: I CANT SEEM TO ACTIVATE MY MIC

00:48:35 Muhibuddin Fadhli: May I ask to Carlo, as AI systems are increasingly being used to make decisions that have a significant impact on people's lives. If AI systems are biased, they could lead to unfair or discriminatory outcomes?

00:51:21 Jheni Arboine: Do you think the propensity for AI to hallucinate will create a new category of new knowledge ?

00:55:52 Janja Komljenovic: Speakers for questions: Jheni and then Tina

00:56:07 Jheni Arboine: My sound has just gone, could it be AI?

00:57:07 Jheni Arboine: I will leave and rejoin

00:57:49 Muhibuddin Fadhli: Thanks Carlo, that's our recent issues engaging with the AI.

00:57:51 Muhibuddin Fadhli: Thanks

00:58:32 Jheni Arboine: Still no sound...

01:00:55 Janja Komljenovic: Are there any more questions or comments?

01:03:02 Lee Harvey: Thanks to Carlo for answering some difficult questions so well.

01:03:36 Victorița Trif: Comment: The following issues are very important: 1) the danger to use AI to manipulate, 2) the biases and error generated by AI, 3) the role of AI to engage students, 4) the use of AI in decision making.

01:06:46 CGHE Webinars: Thank you for joining us today. A recording of this session will be posted on the CGHE site:  
<https://www.researchcghe.org/events/cghe-seminar/interrogating-ai-in-education-when-peeking-inside-the-black-box-is-not-enough/>

Our next webinar, Navigating the opportunities and challenges of AI: A view from Jisc's national centre for AI in tertiary education, will take place on Thursday from 2pm (UK). You can register here:  
<https://www.researchcghe.org/events/cghe-seminar/navigating-the-opportunities-and-challenges-of-ai-a-view-from-jiscs-national-centre-for-ai-in-tertiary-education/>

01:06:49 GNANDEV PHUTANE: Thank you for a informative session, appreciate

01:07:55 Ghulam Yasin: Thanks alot for such wonderful session.

01:08:37 Mark Robinson: Thank you very interesting - will be buying your book  

01:08:43 Lulu Shi: Thanks for the great presentation!
