

# BNO (British National Overseas citizenship) holders and UK higher education, 14 June 2022

00:47:25 Simon Marginson: It's time to come forward in the chat with questions and statements - join the Q&A part of the webinar

00:55:02 David Law: Very important point that Tommy makes: expat UK families (both parents as UK citizens) don't get home fee status for children if they have (for 3+ years) been outside UK/EU (and certain other territories). So there is a knock on impact re home fees for HK migrants.

01:00:45 Pola Lem: Thanks everyone for your insights. I wondered whether someone on the panel has a rough figure on how many HK BNO holders pass their A-levels this summer? And what that could look like next summer?

01:08:56 KHADIJAH AMANI: Sorry if this was already mentioned, but do we have an estimated number of Hongkongers who are affected by the 3 year residency requirement?

01:10:23 CGHE Webinars: Thanks for joining us today. A recording of this session will be on the CGHE site tomorrow morning: <https://www.researchcghe.org/events/cghe-seminar/bno-british-national-overseas-citizenship-holders-and-uk-higher-education/>

01:10:50 Sunder Katwala: I have not seen a good estimate of the number of 17-18 year olds in sixth form, though Michael has some good early estimates of the number who might reach 18 without Home Student status (maybe 12,000 if 250k come to Britain)

01:11:46 CGHE Webinars: Our next webinar will be on Thursday and it will be a big landmark for CGHE! 'Signals in the storm: Higher education, digital communication and geo-politics – CGHE's 300th seminar/webinar'. You can register here:

<https://www.researchcghe.org/events/cghe-seminar/signals-in-the-storm-higher-education-digital-communication-and-geo-politics-cghes-300th-seminarwebinar/>

01:12:10 Jan Chan: Hello, the extension of the BNO scheme isn't effective until October, so I guess Hongkongers applying individually under the extension will have already paid international fees by then?

01:15:53 Sunder Katwala: I think a sub-group of us should work out how to make our best estimate: we have various surveys on the ages of dependent children, and can triage these to come up with an initial estimate, I think

01:17:37 Michael Natzler: Agreed Sunder

01:17:40 Sunder Katwala: I am on [sunder@britishfuture.org](mailto:sunder@britishfuture.org) if people have insights into this advocacy and would like to be involved

01:17:52 Victorița Trif: Thank you!

01:18:10 Corinne Squire: Thanks everyone - really interesting discussion.

01:18:24 Ka Ho Mok: thanks all

01:18:27 Renee Leboe: Thank you for this presentation

01:18:34 Sarah Rimmington: Many thanks - very helpful information and possible arguments.

01:18:38 Bernard Lee: Thank you very much, Simon and Ka Ho and other speakers.

01:18:44 David Law: Thanks to all the speakers.

01:18:53 KHADIJAH AMANI: It's been a very educational session. Thank you for organising it. Really useful to have the insights of Hong Kong led organisations too. Thank you!

01:19:36 Humphrey L.: Thank you very much for all speakers! Rich information indeed!
