

International Student Engagement and Support

16 May 2023

00:46:07 Simon Marginson: It's time to think about your questions or statements for Diep and Ly. Use the Chat to come into the Q&A!

00:51:24 Alison Leslie: Really interesting survey Qs and findings. Did you give student respondents the options for why they don't seek help or are these what they came up with?

00:52:24 Jorge Enrique Delgado: Any interest in the country/institutions to train foreign workers to stay? Or are they seen more like customers who should move forward after graduation?

00:52:38 Mika Tamura: How does the different cultural background of international students affect their adaptation to high education in Australia and students success? And how does each institutes deal with it?

00:52:54 Mariam Kilanova: Hello from Georgia, Tbilisi. I have joined the webinar a little bit late and would like to ask, what was the methodology for the survey? Thank you.

00:54:21 Chris Longman: Thanks for the interesting presentation. One area that surprises me is that international students in your study appear to want support with employability issues more than study skills / learning development / adapting to a different set of educational expectations, as well as English language support. My experience is that these latter issues are uppermost in international students' minds, especially at the start of their studies. Any thoughts on this?

00:59:01 Louise Staunton, Trinity College Dublin: Thanks for your presentation and research Ly and Diep. Arising from your research, what types of resources are you planning to produce from this project? Will these resources be aimed at students mainly or also at education providers?

01:06:59 Jorge Enrique Delgado, U.Pittsburgh/CIES: Very interesting presentation, Ly. Thank you!
