# Teaching Practices in a Global Learning Environment

An Interdisciplinary Take on International Education

**Hanne Tange**, Aalborg University, Denmark

*Series: Global Connections*

This book examines teaching practices in international education, focusing on two significant meanings of the notion of 'practice': the concrete activities used by university lecturers and the role of education as a platform for transferring particular skills or approaches. Combining the approaches of 'pragmatism' and practice theory, as developed by Bourdieu and Schatzki, among others, *Teaching Practices in a Global Learning Environment* addresses themes including the international-ness of academic disciplines, the biographies of international educators, and language issues emerging in international education. As such, it will appeal to scholars across the social sciences and policy makers with interests in pedagogy, internationalisation and higher education.
